MAKE
LEISURE
EXCITING

DRIFT INTO THE EXTRA ORDINARY

Our purpose is to change the way the world enjoys water so we created a whole new category to enhance the water experience: FloatingComfort. Inspired by the challenge and passion to create the ultimate way to float, this unique line of premium floating water furniture is specially designed to MAKE LEISURE EXCITING!

YOUR EXTRA VAGANT SHOW PLACE

Truly distinctive, Looft is all about a new style of water elegance, for locations and visitors demanding the highest standards and looking for the ultimate experience. With Looft you will upvalue your resort, yacht or beach, creating a unique place of excitement and private relaxation for your guests.

A woman with long brown hair, wearing a dark blue bikini with white polka dots, is lying on her back on a white inflatable lounger with green and yellow trim. She is floating on a deep blue ocean. The lounger has a curved, ergonomic shape. The word 'looft' is visible on the side of the lounger.

Our flagship product the Lounger demonstrates the perfect combination of supreme materials, unsurpassed ergonomic comfort and timeless functional design. We have set the benchmark in innovation and efficiency, characteristics that have gone into each and every Looft product.

**SUPREME
DESIGN AND
QUALITY**

A RELIABLE PARTNER

We know you are highly selective when it comes to quality and extravagance. With the signature of Wibit Sports, the world's leading floating water park brand and creator of Looft, you can rest assured that unrivaled expertise, uncompromised safety and quality and the best

user experience are incorporated into every single, carefully developed Looft product. Our name is on it. Wibit has been supplying proof for more than 25 years. Since day one, our passion has been driven by game-changing innovation and excellence.

LOUNGING REINVENTED

Our design DNA and team of engineers have set the benchmark in innovation and efficiency, characteristics that have gone into each and every Looft product. Creating the ultimate way to float Looft's innovative strength and inspiration lies primarily in its willingness to step off the

beaten path and dare to venture into the new. Unprecedented geometrical contours, emphasized by truly distinctive contrasting colorful borders, visually frame the Looft products and give them an elegant aesthetic fit.

KONTUR TECHNOLOGY

Our flagship product the Lounger is what started it all. After looking for a smooth, curved, rounded form we discovered that no such shape existed. So, we decided to create it ourselves. Cutting-edge technology enabled this super strong and yet light material to be curved in a way that met our expectations. A "slicing technique" allows us to create what we call the "bending effect". It took us countless hours of experimentation and fiddling until we found the perfect arc yielding optimal comfort with efficiency.

We call this... Kontur Technology

LOUNGER

FLOAT LIKE NEVER BEFORE

Close your eyes and immerse yourself into tranquility. The unique ergonomic shape of this floating sunbed ensures unrivaled comfort and ultimate relaxation.
